In view of the fact that there has been nuch difference of opinion, even among those interested, as to the right of office holders appointed to positions in the District of Columbia from the city of Baltimore to vote in the latter place, one of them addressed a letter to the board of supervisors of election of that city, asking if citizens of Maryland in the civil employment of the United States, temporarily residing in Washington because of that service, and who were disfranchised under the operation of the "temporary absence" clause of the late election law of that state, can register and vote under the present election law, provided their present service under the federal government has been continuous during such temporary absence from the state. The reply of the supervisors was as fol

"If at the time of your appointment to a federal position you were a resident of Baltimore, and your removal to Washing-ton was in consequence of your appoint-ment to the federal service, and if you have been from the time of your removal from this city to the present time continuously in government employ and are in that em-ploy now, you are entitled to register here, from the residence you had in Baltimore at

the time you were appointed to such fed-eral position." It is presumed that similar action will be taken in the counties of the state upon application of the voters, and that hun-dreds of voters will be re-enfranchised thereby.
